IBD 2014: Thinking Out of the Box

May 30 – 31, 2014
Le Palais des Congrès de Paris
Paris, France

Preliminary Program
CME credits for the Falk Symposium 192 have been applied for at the European Union of Medical Specialists (UEMS) – European Board of Gastroenterology (EBG). The number of credits awarded will be printed in the final program.
Preface

Dear Colleagues,

Significant scientific progress has been made in recent years in the etiopathogenesis of inflammatory bowel diseases (IBD) that has changed or will shortly change the current management of IBD.

The relevance of well-established IBD therapies has been critically re-evaluated under criteria of evidence-based medicine approaches and new therapeutic strategies have emerged. New therapeutic options are assessed in an increasing number of clinical trials and include alternative immunomodulatory approaches, biologics, probiotics, worm eggs, lecithins, cell-based therapies and others. The clinical relevance of these new modalities is still difficult to assess, as physicians have only limited experience with these modalities beyond clinical trials, where patients are highly selected and do often not represent the general IBD population. The availability of more treatment options results in even more different treatment algorithms including various sequences of medical or surgical approaches.

This symposium aims to critically discuss established and emerging new concepts in the management of IBD reflecting the recent advancements. Controversial problems, emerging new treatment options, new therapeutic strategies and a view outside our current pathways and look across our own horizon will be addressed. Difficult therapeutic situations will be critically analyzed and discussed. The program is designed to provide opportunities for discussion, and a lively interaction between the speakers, moderators and the audience is expected.

9.00 Welcome

Session I
Environment and the flora in IBD: Partners in crime?
Chair: W. Kruis, Cologne; P. Marteau, Paris

9.10 What have we learnt about the role of environment and natural course of IBD in the new millennium? 20 year follow-up of the IBSEN Cohort
B. Moum, Oslo

9.30 Probiotics and Antibiotics
H. Sokol, Paris

9.50 Fecal transplantation in IBD
J. Raes, Brussels

10.10 Flora manipulation through diet and modified bacteria
J. M. Rhodes, Liverpool

10.30 Coffee break with poster session

Session II
Fibrosis in IBD
Chair: P. L. Lakatos, Budapest; G. Rogler, Zurich

11.00 Mechanisms and models for intestinal fibrosis
T. Torres Pizarro, Cleveland

11.20 Clinical Management of intestinal stenosis: Pro: Conservative endoscopic and medical treatment
G. van Assche, Leuven

11.40 Clinical Management of intestinal stenosis: Pro: Surgical treatment
A. D’Hoore, Leuven

12.00 New therapeutic avenues for treatment of fibrosis: Can we learn from other diseases?
G. Rogler, Zurich

12.20 Lunch break with poster session
Session III
Cell-based therapies

Chair: J. Panés, Barcelona; W. Reinisch, Vienna

14.00  Cardiac Stem cell transplantation – What can we learn from the cardiologist?  A. M. Zeiher, Frankfurt
14.20  Hematopoetic stem cell transplantation  M. Allez, Paris
14.50  Mesenchymal stem cell transplantation  L. Egan, Galway
15.10  Immune cell therapy to treat IBD  J.-F. Colombel, New York

15.30  Coffee break with poster session

Special Lecture

Chair: M. Allez, Paris; S. Danese, Rozzano

16.00  Cytokines for IBD: Past, present and future  S. Schreiber, Kiel

Session IV
New therapies or new therapeutic strategies in IBD?

Chair: B. Siegmund, Berlin; C. J. van der Woude, Rotterdam

16.30  Trichiuris suis ova, lecithin and other fancy molecules  J. Schölmerich, Frankfurt
16.50  New drugs on the horizon for IBD  B. E. Sands, New York
17.10  Treat the lesions or treat the symptoms? New treatment algorithms  G. D’Haens, Amsterdam
17.30  The clinical studies that should be performed in IBD  J. Panés, Barcelona

17.50  End of afternoon session
Saturday, May 31, 2014

Session V
Best use of biologics in 2014

Chair: Y. Bouhnik, Clichy; F. Magro, Porto

9.00  Starting and stopping anti-TNF drugs  
      R. Panaccione, Calgary

9.20  Can anti-TNF therapy change the course of disease?  
      A. Sturm, Berlin

9.40  Biosimilars: Are they bioequivalent?  
      F. Gomollón, Zaragoza

10.00 Tailoring treatment to the individual patient: Drug monitoring  
      W. J. Sandborn, La Jolla

10.20 Coffee break with poster session

Session VI
Current role of immunosuppressants in IBD

Chair: L. Beaugerie, Paris; H. Tilg, Innsbruck

10.50 Optimal treatment of early CD and UC  
      E. Louis, Liège

11.10 Treatment of established CD and UC – Still a role for Aza  
      J. Cosnes, Paris

11.30 Special situations: Perianal disease and postoperative period  
      S. Ghosh, Calgary

Special Lecture

Chair: A. Dignass, Frankfurt; P. Marteau, Paris

11.50 Integrating omics: The future in IBD?  
      C. Fiocchi, Cleveland

12.20 Lunch break with poster session
Saturday, May 31, 2014

Session VII
The complicated IBD patient: Clinical case marathon

Chair: W. A. Bemelman, Amsterdam; L. Peyrin-Biroulet, Nancy

13.20 Presentation of Poster Prizes

13.30 Tandem talk: A patient with Crohn’s disease and intra-abdominal infection (abscess): The place and timing of biologics and surgery

13.55 Tandem Talk: Refractory distal ulcerative colitis – Is always proctocolectomy necessary?

   Pro: Proctocolectomy
   Con: Proctocolectomy

14.20 Previous cancer and/or lymphoma in patients with refractory IBD:

   Pro: Anti-TNF or immunosuppressive treatment
   Con: Anti-TNF or immunosuppressive treatment

14.45 Refractory pouchitis: Probiotics, immunosuppressive therapy or pouch removal?

15.10 Closing Remarks

15.20 End of afternoon session
Poster Session

Posters will be exhibited on May 30-31, 2014 in the Le Palais des Congrès de Paris. The authors will be in attendance during coffee and lunch breaks on both days.

Call for Posters

Please submit your poster abstract before January 31, 2014. Only one-page abstracts not exceeding 300 words, written in English and saved in Microsoft Word format will be accepted.

Abstracts must be submitted via our Internet Abstract Submission System (http://www.falkfoundation.org/poster) where further information regarding the submission format and the submission process is available.

The abstracts will be selected by the scientific organizers, preference being given to those thematically related to one of the sessions of the program.

The accepted abstracts will be printed and distributed to the participants of the congress together with the documents of the meeting.

The authors will receive notification about acceptance and further instructions in February 2014.

Contact address for further information on the poster session:
